

Meridian and Transparent Sweep EHX Demo Alley Awards

Nov 14 2005

ANAHEIM, Calif. -- Meridian Audio and Transparent Cable's Demo Alley booth at the Electronic House Expo (EHX), which featured "Faroudja by Meridian," swept the six Best of Demo Alley (BODA) Awards, voted upon by EHX attendees. The categories include Best Audio Demo Experience, Best Video Demo Experience, Most Informative Audio Demo, Most Informative Video Demo, Best Demo Presenter, and Best Overall Demo.

"The voice of EHX attendees was clearly heard as they overwhelmingly chose the Meridian and Transparent demonstrations as the Best of Demo Alley," says CE Pro senior editor Bob Archer. "This shows that these companies are living up to their performance reputations by delivering convincing product demonstrations to dealers and consumers."

The demo room included DSP7000 digital loudspeakers in the front, DSP5200s for the side channels and DSP5500s for the rear channels. The system also included a SW5500 analog/digital woofer and a Faroudja DILA1080pHD digital projector, driven by the DVP1080 digital video processor.
