

TRANSPARENT MM2 TECHNOLOGY WINS ELECTRONIC HOUSE PRODUCT OF THE YEAR 2008

The editors of Electronic House Publishing's four magazines have selected Transparent MM2 Technology as an EH Product of the Year 2008. The decision is based upon reviews, product demonstrations, and talking with installers and consumers. Topping the list of criteria are technological innovation and outstanding features combined with overall value.

MM2 Technology encompasses a whole range of products that embody EH's criteria — from the technological innovation of the OPUS MM2 family to the overall value of The Link and The Wave and everything in between and the outstanding features of MM2 updates and upgrades.

TECHNOLOGICAL INNOVATION —
The OPUS MM2 family

OVERALL VALUE — *The Link
and The Wave with MM2 Technology*

OUTSTANDING FEATURES — *MM Series cables
returned to Transparent for MM2 updates and upgrades*
