

Catch the Wave! MM2 updates come pouring in from Transparent customers.

MM2 Transparent released the new MM2 generation of audio cables earlier in 2008. MM2 Technology brings significant improvements to every cable in the audio range, from OPUS MM2 to The Link interconnect and The Wave speaker cable. With MM2,

OPUS MM2

- **Noise disappears**
- **Listening space expands**
- **Dynamics bloom**
- **Pace and rhythm flow**
- **Microdetails unfold**
- **Music envelops**

THE LINK AND THE WAVE,
INCORPORATING MM2 TECHNOLOGY

Transparent wants all existing customers to experience the exciting improvements made possible by MM2 Technology through Transparent's Upgrade or Update Programs.

UPGRADE Transparent's Upgrade Program provides opportunities for Transparent customers to keep pace with system upgrades and new Transparent technologies: Any vintage or condition of Transparent cables at the Plus performance level and above are eligible for the program. With an Upgrade, trade in existing Plus level and above Transparent cables toward the purchase of new MM2 cables at a higher performance level.

UPDATE Transparent's new Update Program expands MM2 Technology

possibilities for customers who own OPUS MM cables or Reference Series cables with MM Technology. (Reference Series cables with XL and earlier technologies cannot be updated; however, they are eligible for the Upgrade Program.)

ONE WEEK'S INFLUX OF CABLES FROM EXISTING TRANSPARENT CUSTOMERS WHO AUDITIONED MM2 AT THEIR DEALERS AND ORDERED AN UPDATE

The Reference Series includes Reference, Reference XL, and Reference MM speaker cables and interconnects. With an Update, send back your OPUS cables or Reference Series cables with MM Technology through your authorized Transparent dealer, and Transparent brings them up to MM2 spec.

AUDITION Find your nearest dealer [here](#), and make an appointment to experience MM2 for yourself.
