

Invest in some modern art.

TRANSPARENT'S NEW POWER CORD UPGRADE PROGRAM

Transparent's MM Technology brings power cord performance to new heights of naturalness and dynamics, and protects your system from the degrading effects of power grid noise and parasitic resonances.

Upgrading is easy. Take your old Transparent power cord to your nearest Transparent dealer and apply 70% of its current retail value toward the purchase of a new Transparent Power Cord at a higher performance level. You'll get a double upgrade: a performance upgrade and an MM Technology upgrade. Your dealer can give you all the details.
